Certificate in Dental Radiography

Course Overview

The Certificate in Dental Radiography post-qualification course is certificated by NEBDN.

Upon successful completion of this 6 month course, you will possess the knowledge and skills to take intra-oral and extra-oral radiographs without the supervision of a practitioner.

Course Structure

The Record of Competence consists of signed and verified Practical Competence Assessment Sheets in the taking of fifty radiographs to include at least:

- Ten dental panoramic
- Ten pairs of bitewings
- Twenty paralleling technique for periapical radiographs

The remaining ten radiographs are taken from the following 3 types of radiographs, but should include a minimum of two of each of the following:

- Bisecting angle technique periapicals
- Occlusal views
- Cephalometric lateral skull views

In addition you will also have to complete:

- Three case studies, each of approximately 1000 words each, relating to the taking of a dental panoramic radiographs, a set of bitewings and a paralleling technique periapical radiograph.
- Supplementary Outcome Sheets to further show your competence and experience in radiography.

Entry Requirements

You must be a General Dental Council registered professional.

Your dentist must be willing to allow you to take a variety of radiographs for patients and to supervise you throughout your course. They can refer the supervision to a suitably qualified registrant such as an associate dentist, therapist, hygienist, dental nurse or any medical person who holds a dental radiography qualification.

You must have regular access to a computer or laptop and the internet if you are undertaking the online course.

Intakes

Classroom-based and online courses start every March and September. Classes take place fortnightly if you attend the evening course and once a month if you attend the Saturday course.

The next intake for the classroom-based course starts on 11th March 2017 from 9.30am until 3.30pm, and will run until the September 2017 exam. The next online course starts on Monday 20th February 2017 and will also run until the September 2017 exam.

Enrolment Process

You can enrol either online or by visiting our training centre or over the telephone.

You will be required to complete an application form online and provide a copy of your GDC registration certificate. You will also need to ensure that your supervising employer agrees to and signs the Service Level Agreement (SLA) and Candidate Registration Form (CRF).

Please contact our training department for more information and support in completing the enrolment process at info@tempdent.co.uk or 020 8371 6700.
